Profile

As a beginner in this field, I would like to work with an accomplished and eminent team which can help me explore new possibilities and add to my knowledge as well as experience in terms of working with an acclaimed group. I would like to grab the opportunity to learn diligently and give off my best.

Additional Skills

- Skills: Python, Html, CSS, JavaScript, Java, Ethical Hacking , Cloud computing
- Creativity & Hardworking
- Time management & Organization
- Computer and technology skills
- Always Curious to Learn New things.

Education

2016 - 2017
Xth Standard

Sainik Awasiya Mahavidhyalaya
3.85/4 GPA

2017 - 2019
XII th Standard

Daisy English Boarding Secondary School
3.22/4 GPA

2019-2023
BTech in Computer Science & Engineering
Specialization in NS

MIT Art, Design and Technology University
CGPA - 8.47/10

Internship

- Completed a 6 months duration internship with SoftTech Data Securities as a Jr. System Developer Intern in the Software Solutions Department. (Year 2020, Online)
- Completed 10 weeks of CyberSecurity Virtual Internship during July-Sep 2022 conducted by AICTE sponsored by PaloAlto.

Additional Courses / Certifications

- Learn Ethical Hacking From Scratch (Completed)
- CCNA: Introduction to Networks (Completed)
- Introduction to Cybersecurity (Completed)
- Coursera - Google's IT Support Professional Certificate (Completed)
- PCAP : Programming Essentials in Python (Completed)
- Ideathon 2022 _ CyberSecurity Essentials (Completed)
- Google IT Automation with Python (ongoing)

Projects

All these projects can be found in my github repos: https://github.com/drax2002

1 . Data Leakage Detection System :
-Developed a web based project to detect when the distributor's sensitive data has been leaked by agents, and if possible to identify the agent that leaked the data. Used CSS and PHP in order to develop the project.

2. LSB Steganography
 - developed a model that can encode and decode messages within digital images using the LSB technique.

3. Criminal Face Identification System
- Created a face recognition system for crime branches to identify faces using JAVA programming.
- Used the split images and process that images into the system in order to match the correct picture of the criminal.

(Research Project)

https://ieeexplore.ieee.org/abstract/document/10346319

4. Implementation of Secure Key Management and Distribution in Cloud Environments
- used AWS cloud to demonstrate a secure key management and distribution scheme using Threshold cryptography.
- studied about the gap identification on existing methods and we tried to make a method which is more secure and faster in computation.

Extra Curricular Activities

- Training for 35 days in NCC as Jr. National Cadet Corps (Nepal)
- Participated in "**Cyber Shenanigans** : A Safe Hacking Fiesta" conducted during Persona Fest 2023 by MIT ADT University and came 1st Runner Up & also received some goodies and certification of merit.
- Presented Research Paper Entitled **"Implementation of Secure Key Management and Distribution in Cloud Environments"** in 2nd IEEE International Conference on Blockchain and Distributed Systems Security 2023 held on Oct 6th - 8th, 2023, IIIT Naya Raipur, Chhattisgarh and successfully published the paper in IEEE Xplore.

Personal Details:

- Gender: Male
- Nationality : Nepal
- Present Address : Khairahani 08, Parsa, Chitwan , Nepal 44200
- Permanent Address : Jyamire, 01 Khairahani, Chitwan, Nepal
- Date of Birth: Jan 20, 2002
- Known Languages: English,Hindi,Nepali
- Phone Numbers: +977-9809128267
- Email: amanlamsal2002@gmail.com

Declaration: - I, hereby declare that the above-mentioned information is correct up to my knowledge & I bear the responsibility for the correctness of the above-mentioned information.
